International Journal of Fracture

CONTENTS OF VOLUME 94 (1998)

Vol. 94, No. 1, 1998

Elastodynamic stress intensity factors for a semi-infinite crack due to three-dimensional concentrated shear loadings on the crack faces	XIAOHUA ZHAO and HUICAI XIE	1–16
A combined method of molecular dynamics with micromechanics improved by moving the molecular dynamics region successively in the simulation of elastic–plastic crack propagation	Y. FURUYA and H. NOGUCHI	17–31
On scattering of measured values of fracture toughness parameters	J.H. CHEN and G.Z. WANG	33–50
Interaction of time-harmonic SH waves with a crack-like inclusion: edge region analysis	V.F. EMETS, H.S. KIT and YA.I. KUNETS	51–62
Crack problem for a functionally graded layer on an elastic foundation	SUAT KADIOĞLU, SERKAN DAĞ and SELÇUK YAHŞI	63–77
Analysis of mode mixity in blister tests	HENRIK MYHRE JENSEN	79–88
Dual boundary element method for three-dimensional thermoplastic crack problems	D.N. DELL'ERBA, M.H. ALIABADI and D.P. ROOKE	89–101

Vol. 94, No. 2, 1998

Collinear cracks in a layered half-plane with a graded nonhomogeneous interfacial zone – Part I: Mechanical response	HYUNG JIP CHOI, KANG YONG LEE and TAE EUN JIN	103–122
Collinear cracks in a layered half-plane with a graded nonhomogeneous interfacial zone – Part II: Thermal shock response	HYUNG JIP CHOI, TAE EUN JIN and KANG YONG LEE	123–135
Interaction of two unequal cracks in a pre-stressed fiber reinforced composite	E.M. CRĂCIUN and E. SOÓS	137–159
A perturbation analysis of rapid crack propagation in pressurised pipe	J.G. WILLIAMS and G.P. VENIZELOS	161–176
Analysis of crack extension paths and toughening in a two phase brittle particulate composite by the boundary element method	C. WANG, W. LIBARDI and J.B. BALDO	177–188

Effects of finite notch width on the fracture of chevron – notched specimens	RAJENDRA KOLHE, CHUNG-YUEN HUI and ALAN T. ZEHNDER	189–198
Corrigendum: Analysis of cracks in constrained layers	C.H. WANG	199–200

Vol. 94, No. 3, 1998

Analytical-numerical solution of elliptical interface crack problem	E.I. SHIFRIN, B. BRANK and G. SURACE	201–215
Path-independent $\boldsymbol{H}$ integrals for three-dimensional fracture mechanics	G. MEDA, T.W. MESSNER, G.B. SINCLAIR and J.S. SOLECKI	217–234
Mixed mode brittle and ductile fracture of a high strength rotor steel at room temperature	D.J. SMITH, M.R. AYATOLLAHI, J.C.W. DAVENPORT and T.D. SWANKIE	235–250
Experimental observations and computational modeling of fracturing in an anisotropic brittle crystal (Sapphire)	ABBAS AZHDARI, SIA NEMAT-NASSER and JACOB ROME	251–266
Mixed mode fracture of concrete under proportional and nonproportional loading	J.C. GÁLVEZ, M. ELICES, G.V. GUINEA and J. PLANAS	267–284
Studies on elastic coupling parameters of fracture modes in orthotropic materials	A.V. KRISHNA MURTY and A. NAGAMANI	285–297

Vol. 94, No. 4, 1998

A nonlinear finite element eigenanalysis of singular stress fields in bimaterial wedges for plane strain	NINGSHENG ZHANG and PAUL F. JOSEPH	299–319
Experimental and numerical investigation on single specimen methods of determination of J in rubber materials	N. AIT HOCINE, M. NAIT ABDELAZIZ and G. MESMACQUE	321–338
Boundary collocation method for multiple defect interactions in an anisotropic finite region	E. MADENCI, B. SERGEEV and S. SHKARAYEV	339–355
J-Q characterization of propagating cracks	A. TRÄDEGÅRD, F. NILSSON and S. ÖSTLUND	357–369
A treatment of interfacial cracks in the presence of friction	C.T. SUN and W. QIAN	371–382
The effect of plasticity on dynamic crack growth across an interface	J.J.M. ARATA and A. NEEDLEMAN	383–399
Volume contents / Author index		401–403
